

design for working

We aim to provide our clients with highly effective work spaces that inspire.

Whether you are undertaking a complete refurbishment, taking over a new building, or you simply need to create more room in your current place, we will help you get it right.

Our projects range from complete fit-outs to 'front of house' reception areas to complex storage and IT rooms.

We will work with you to understand your business needs and functions today, your company culture plus your future vision.

We can advise on furniture, and manage procurement and installation.

We have commissioned major art works the government and blue chip clients.

We aim to go beyond your expectations, managing the complete process, delivering on time and within budget so you can concentrate on your business.
